

A UNIQUE WORLDWIDE SERVICE

Evaluating and providing the highest quality Stainless Steel, Nickel and Low Alloy welding products. Manufactured by mills with international reputations for excellence and reliability.

SERVICE AND SUPPLY The Midalloy Difference

Building relationships of trust requires true customer service. We ship 99% of orders the same day they are received and always included are – **actual chemistry** – material test reports. Our salaried professional sales staff assures our customers with face-to-face attention that is technical, experienced, and timely.

QUALITY CONTROL PROGRAM The Midalloy Reputation

Midalloy has established an impeccable reputation for products of performance and endurance. Our audited Quality Control Program ensures Midalloy welding consumables meet our stringent standards, which are comparable to the best steel manufacturers in the world.

TRACEABILITY PROGRAM The Midalloy Advantage

Our custom built computer program insures ultimate product traceability. All Midalloy welding products can be traced from invoice to origin in four distinct ways, more ways than any competitor. This capability distinguishes Midalloy from other industry sources and maintains our leadership standing in the welding supply industry.
